## 2023 and 2024 By the Numbers

## Compiled by David L. Mellem, EA

Many numbers we use in our profession are indexed for inflation. The effective date for many of these inflation calculations is August $31^{\text {st. }}$. This chart contains the amounts for 2023 and 2024 for many items we deal with on a regular basis. These amounts are the official Internal Revenue Service (IRS) amounts as of the Internal Revenue Code as of November 9, 2023. Any amounts that have not yet been officially released by IRS are indicated with an "*."
